CONTENTS FOR VOLUME 40

Arnaud, Paul H., Jr.

Book Notice: The fruit flies or Tephritidae of California 154

Ashlock, Peter D., and Charles W. O'Brien

Catharosia lustrans, a tachinid parasite of some drymine Lygaeidae 98

Bennett, Fred D.

Notes on the nesting site of Centris derasa 125

Bohart, George E.

Notes on the biology and larval morphology of Xenoglossa strenua 174

Bright, Donald E., Jr.

Description of three new species and new distribution records of California bark beetles 165

Buckett, John S.

Rediscovery and redescription of the moth, Euxoa marinensis 101
Identity of the moth, Euxoa wilsoni 104
Distributional notes on Septis maxima with illustrations of the genitalia 162

Cazier, Mont A.

Host plants, population density, and parasites of two species of jumping plant lice 67

Cazier, Mont A., and Martin A. Mortenson

Studies on the bionomics of sphecoid wasps. I. Moniacera asperata (Fox) 111

Chaniotis, Byron N., and John R. Anderson

Notes on the morphology and laboratory rearing of Phlebotomus vexator occidentis 27

Chemsak, J. A.

Introduced European cerambycid 62
Immature habits of Callidiini with a description of new California Callidium 187
Type species of generic names applied to North American Lepturinae 231

Chemsak, J. A., and E. G. Linsley

Descriptions and records of Mexican Methiini 158

Cook, Paul P., Jr.

A new genus of Membracidae from China 222

Denning, D. G.

Trichoptera of Baja California 128
Descriptions of five new Trichoptera 241

Eaton, Charles B., and George R. Struble

John Elliot Patterson, 1887–1962 1

Edwards, J. G.

Ladybird beetles mating at high elevations 62
Rare butterflies from Montana 64
Book Review: Introduction to high altitude entomology 39

Ellertson, Floyd E.

Trapping male Pleocoma with black light 171

Frick, Kenneth E.

Liromyza dianthi, a new synonym of L. langei 11

Grigarick, Albert A., and R. O. Schuster

A new species of Lucifotychus 201

Grigarick, Albert A., and Lionel A. Stange

New species and distribution of Dianthidium in North America 147

Irwin, M. E.

Stylopized bees 61

Janzen, Daniel H.

Xylocopa (Neoxylocopa) varipuncta nesting in driftwood in Mexico 65

Kelson, W. E.

Occurrence of Drosophila azteca in a spittlebug mass 116
The biology of Aphrophora permutata and some observations on Aphrophora canadensis attacking Monterey pine in California 135

Kistner, David H.

New species of the genus Dorylocratus with notes on their behavior 246

Lanham, U. N.

Andrena clarkella in Colorado 9

Leech, H. B.

Book Notice: A catalogue of the Nearctic Chalcidoidea (Insecta: Hymenoptera) 10
Book Notice: Insect pathology. An advanced treatise 12
Recent literature 20
Book Notice: Experiments in genetics with Drosophila 32
Book Notice: A review of the biological control attempts against insects and weeds in Canada 60

MacNeill, C. D.

Search for information on monograph by R. H. Stretch 65

Menke, Arnold S.

Notes on two Sphecinae described by Fox 238

Mickel, Clarence E.

A new genus and species of Mutillidae from California 108

Middlekauff, Woodrow W.

Notes and description of the previously unknown male of Syntexis libocedrii 255

Moore, Ian

A note on the identity of Liparocephalus brevipennis 10
A new species of Endeodes from Sonora, Mexico 57

Myers, Charles M.

Identification of Culex (Culex) larvae in California 13

Oliver, James H., Jr.

A wasp parasite of the possum tick, Ixodes tasmani, in Australia 227

Powell, J. A.

Mating behavior of Incisalia iroides (Boisduval) 100
A review of Griselda, with descriptions of a related new genus and two species 85
Occurrence in California of Oinophila v-flava, a moth probably introduced from Europe 155
Two scavenger moths of the genus Borkhausenia introduced from Europe to the west coast of North America 218

Reinhard, H. J.

Parasitic flies of the genera Helioprosopa and Euhelioprosopa 117

Rentz, D. C.

Pidonia scripta (LeConte) from oak bark 63

Rumpp, Norman L.

Book Review: The taxonomy and speciation of Pseudophonus 84

Samuelson, G. Allan

A new gall mdige from Prickly Pear cactus in Arizona 5

Smith, David R.

Description of the male of Xyelecia nearctica, with comments on the genus 54

Smith, Leslie M.

Japygidae of North America 10: The genus Ctenjapyx 33
Japygidae of North America 11: The genus Hecajapyx 37

Sokoloff, Alexander

Studies on the ecology of Drosophila in the Yosemite Region of California. V. A preliminary survey of species associated with D. pseudoobscura and D. persimilis at slime fluxes and banana traps 203

Stark, R. W., and C. S. Koehler

Biology of the gall wasp, Eurytoma tumoris, on Scots Pine 41

Thorp, R. W., and J. A. Chemsak

Biological observations on Melissodes (Eumelissodes) pallidisignata 75

Tilden, J. W.

Stylopized wasp 61

Toschi, Catherine A.

Observations on Lomanyia latipennis with a description of the first instar larva 21

Ueshima, Norihiro

Experiments on reproductive isolation in Cimex lectularius and Cimex columbarius 47

Wasbauer, Marius S., and William E. Simonds

A note on the prey and nest structure of Stigmus inordinatus inordinatus 114

Wickman, Boyd E.

Observations on the siricid parasite Ibalia ensiger 19
Freshly scorched pines attract large numbers of Arhopalus adults 59
Attack habits of Melanophila consputa on fire-killed pines 183
Observations on oviposition habits of Sirex longicauda and Urocerus californicus 259

Wilcox, J.

The genus Metapogon 191
